one-eighth to county schools.
The counties of New Mexico received last year a total of \$23,529.53 from a total fund of \$31,229.35. The present fiscal year, which ends June 30, 1911, will bring something of excess to the territories of New Mexico and Arizona. Business is on the increase in this district and it is probable that \$120,000 will be divided between the territories as the result of operations for the fiscal year beginning July 1, 1911.

No. 3001 had nearly reached the end of her return journey, and was not a hundred yards from the end of the spur when the rails gave way beneath her 112,000 pounds burden and the monster engine was helpless on the tie. The fault was due to the fraying of the old rails in one on the spur, which were laid a dozen years ago and were of the old 65-pound weight. Nearly all the track traversed by the 2000 class engines nowadays are 30 to 100 pounds weight and are ample sufficient to carry the tremendous load.

Former Governor Miguel A. Otero came to the city last night from Santa Fe on business connected with the Atchison, Topeka and Santa Fe railroad of which he is receiver. He was accompanied by H. R. McMillen. Chester Colgan, a native of Platteburg, died at his home at 818 Santa Fe on Sunday night. His death came after a long and lingering illness. He is survived by a mother, a brother and sister who will accompany his body back to his home tonight, where he will be buried.

Attorney O. N. Marron has returned from Estancia where he went to represent a group of creditors in the case against R. Atkinson and son in the products court of Torrance county. He states that the valley is looking unusually prosperous on account of rainfall, and a boosting spirit among the people as gratifying.

The engine was being driven with great caution along the spur, which is a slight curvature, when it is believed that the first wheel on the left side of the long trucks lifted itself as it forced up by the pressure. The flange of the wheel then climbed onto the rail and the driver flange following overturned the rail simultaneously, the right rail warped and spread. No. 3001 was required to pull the giant onto the track and pulled away immediately at the work. Brigs of special weight were employed for the wheels to ride on. At last with the assistance of her own steam, 2001 got onto the track after about twenty minutes.

Her pilot was damaged and had to be removed for repairs. The cylinder head has been taken off and is undergoing a readjustment, in order that a better fit may be secured, and it is hoped to have the engine on her way in a couple of days.

Four new rails on the right and one on the left will repair the damage to the track. The right rail when torn up yesterday exhibited one complete portion to the right between three successive fish joints, showing the extent of the pressure exerted by the heavy load. The derailment occurred but a few feet from a new board crossing on the walk between the offices and the roundhouse, and the crossing was uninjured.

Boosters are rushing the work on the altars. Just the place for economy.

FOREST RESERVES

MAKING MONEY

Receipts Show Large Increase

According to Monthly Re-

port Received By A. C.

Ringland in This District.

The regular monthly report of the condition of the forestry service for the third district was received by District Forester A. C. Ringland today. Several features of interest to New Mexicans are contained in the report. The gross receipts of the third district through April of this year show an increase of \$18,000 over the business done in a similar period last year. In 1910, from January 1 to April 30, the gross receipts of the district were \$286,745.35, and for a similar period in 1911 they were \$304,549.18. Of this increase \$11,600 is in timber receipts. Another big source of revenue is from grazing permits.

One-fourth of the gross receipts of each district is devoted in compliance with the provisions of a federal statute to the school and road funds of the counties in which national forests are situated. That is, one-eighth of the gross receipts of the forestry department goes to county roads and

known as orators of ability and high sincerity of purpose. The mission will be held in the Immaculate Conception church, beginning with high mass at 10 a.m. followed by the electric committee in charge of arrangements, who expect that the capacity of the church will be reached. All men who are willing to consider the subjects that will be discussed at the mission are earnestly invited to attend the meetings.

A daily program for the week, May 14 to May 24, inclusive, is appended.

12:30 a. m.—Mass and sermon.

3:30 p. m.—Station of the cross.

7:30 p. m.—Instruction for adults who have not made their first holy communion, and for non-Catholics.

7:30 p. m.—Rosary, sermon and benediction of the blessed sacrament.

Confessions will be heard any time in the morning and in the afternoon and evening from 3 to 10:30 o'clock.

KNIGHTS WILL WORK FOR BIG MISSION

At a meeting of Albuquerque Council No. 641 the Knights of Columbus last evening appointed a committee of twelve men to circulate invitations and information concerning the first annual mission retreat for men, which will be conducted under the auspices of the order in this city for a solid week, beginning Sunday, May 14.

The meeting will be addressed by Rev. Thomas O'Malley, S. J., and Rev. Charles Jansen, S. J., both well
